

Upper Blepharoplasty + CO₂ Laser

The perfect combo for fall!

**Two treatments. One surgical appointment.
One recovery.**

Why choose between an aesthetic treatment and a cosmetic surgery procedure when you can combine and **save \$2450!**

Blepharoplasty – refreshes the appearance of the upper eyelids.

CO₂ Laser – improves skin texture, tone, fine lines and overall skin quality.

Discover the benefits of combining both procedures!

- Cooler temperatures and less sun exposure make fall the perfect time to recover from this dual procedure.
- Get a smoother, more refreshed appearance with approximately one week of recovery, depending on the depth of your CO₂ Laser Treatment.
- Save \$2450 with this Exclusive Combo Offer.
